

astiglass
TRANSPARENT QUALITY

Astiglass, a leading company in the transformation and distribution of glass.

astiglass
TRANSPARENCY QUALITY

ASTIGLASS originated at the beginning of the 60's, when Donato Aliaga Caro, father of the present day owners, founded his glass workshop.

The family company ASTIGLASS has its beginnings in 1993 and over the years put into practice innovations in the production system, carrying out a modernization process and acquiring the newest machinery for glass treatment.

50 years experience, effort and innovation achieve and increase productivity and product quality, situating ASTIGLASS as a reference company in the glass sector.

Productive Capacity

In ASTIGLASS over 26,000m² of productive area with a production capacity of 18,000 tons of glass per year. Facilities that are totally designed to affront the challenge of becoming leaders in the transformation of glass.

Technology and Qualification

Our state-of-the-art facilities and our highly qualified team make it possible for ASTIGLASS to respond efficiently to all customer needs
